

Low Odour – High Performance

Do you need a Roland plug & print ink system that features suitability for a wide substrate range, coupled with highest resistances? **Mara[®] Jet DI-LSX** satisfies your and your customer's needs: Great performance even on low-priced materials, for perfect results.

Applications

Mara[®] Jet DI-LSX was especially developed for Roland printers.

Mara[®] Jet DI-LSX may also be used on printers with identical construction employing Roland inks, or similar.

The DI-LSX substrate range includes

- different qualities of PVC self-adhesive foils (monomeric, polymeric and cast PVC films)
- other PVC coated materials and tarpaulins
- textiles

Characteristics	Mara [®] Jet DI-LSX
Plug & Print Compatibility	+++
Resistance	+++
Drying	+++
Printing stability	+++

Your Benefits:

Perfectly adapted colour shades for best Plug & Print compatibility

→ Change-over without having to adjust the colour profiles

Outstanding scratch and chemical resistance

→ Convenient use, high durability for extreme stress

Very fast drying properties

→ Perfectly suited for fast printing speeds and roll-to-roll print jobs

Mild, low-odour solvents

→ Very user-friendly

High-grade pigmentation

→ Excellent light fastness for long-term outdoor applications

Available in different units

→ Full flexibility for differing ink consumptions
